775 Adhesive Spreader

Black Bros. Co. developed the 775 Adhesive Spreader to provide a compact, value-priced adhesive spreader that offers system-matched productivity and easy maintenance. Black Bros. 775 Spreader is a reliable and durable machine designed to apply a wide range of industrial adhesives to particle board, MDF and other substrates used in woodworking. Available in sizes to fit many woodworking applications and equipped with several optional features to customize the machine to the specific needs of your operation. For further information, please visit us at IWF at booth #8963 or you can visit us online at www.blackbros.com
